Objectives : The Sub-Fund seeks long-term capital appreciation. The Sub-Fund is actively managed and it uses Russell 1000 Growth Index Net for performance measurement ("the benchmark"). The Investment Manager may use its discretion to invest in companies not included in the benchmark in order to take advantage of specific investment opportunities. Equity securities, as determined by the Investment Manager in its discretion, include, but are not limited to, common stocks, preferred stocks, securities convertible into common stocks, rights and warrants. A large capitalization company is one that has a market capitalization of more than USD 10 billion at the time of the investment. Also as determined by the Investment Manager, issuers that issue US securities may be domiciled and/or headquartered anywhere in the world. The Sub-Fund generally will contain 25 to 35 positions. The Sub-Fund may, from time to time, have significant exposure to one or more issuers, industries, geographic regions or sectors of the global economy.
